DETAILED ACTION

Applicant's arguments are persuasive with respect to the previous election of species requirement. The groups should have been separated in the previous office action.

Election/Restrictions

Claims 1, 22, and 41 generic to a plurality of disclosed patentably distinct species comprising

Group 1

- 1a) a golf ball comprising a liquid core,
- 1b) a golf ball comprising a gas.

Applicant may elect either 1a or 1b from group 1.

Group 2

- 2a) a golf ball with a MOI greater than 0.460,
- 2b) a golf ball with a MOI less than 0.450.

Applicant may elect either 2a or 2b from group 2.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 3711

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raeann Gorden whose telephone number is 571-272-4409. The examiner can normally be reached on M-F 9-5.
